COMPANY PROFILE

About Siron

BEST HEALTHCARE

Our team of medical professionals are here to provide you with high standards of healthcare. We are committed to working together to ensure that you and your family receive outstanding medical services, first-rate facilities and compassionate care.

FOCUS ON PATIENT BENEFIT

Everything that we do is always geared towards one primary goal – patient benefit. This applies to investments and acquisitions together with the establishment of uniform structures and processes, not to mention the accreditation of new affiliated doctors and the foundation of collaborations. A high patient benefit is comprised of first-class medical quality, a high level of patient satisfaction and the efficient provision of services.

STAFF

With our optimally trained staff, we guarantee individual patient care in pleasant surroundings. In addition to medical specialists from virtually all disciplines

More About Us

AFFILIATED DOCTORS & EMPLOYED DOCTORS

The team of doctors at Siron Medical Center is made up of affiliated doctors and employed doctors. This allows for an extremely wide range of medical services, from basic care and common medical functions at the hospitals all the way through to specialized and highly specialized medicine.

QUALITY MANAGEMENT

Siron Medical Centre has a highly developed quality management system. Its most important function is to ensure the continual improvement process, a major part of which also includes the Group-wide sharing of knowledge and the adoption of best practice.

Supplementary Insurance

Siron Medical Centre positions itself on the market as a leading provider of supplementary insurance. This means that patients with semi-private and private insurance can reap the benefits of their insurance class. This includes the free choice of doctors and appointments, having a say in the use of certain brand products and technologies, and added levels of comfort services.
